

TRAINING OF TRAINER TRAUMA RESPONSIVE INSTITUTE FOR AUTHORIZATION TIME COMMITMENT

Apprentice Activity	Time
<p>Module 100 Trauma-Responsive and Resilience Building Practices for Educators - Relationship-Based Approaches that Support Healing and Build Resilience in Children</p> <p>This 6-8 hour module provides an overview on the neurobiology of trauma, the impact of toxic stress on a child and the science of resilience, hope, healing and neuroplasticity. Participants will walk away understanding the difference between a challenging behavior and trauma trigger. The training will guide educators working with children to understand trauma and resilience as well as its impact on children’s brains, behavior, learning, and development. The training introduces a range of trauma-responsive and resilience building practices participants can use in education programs to create strength-based environments that support children’s health, healing, and resilience.</p> <p>The strategies learned are best practices and good for ALL children.</p>	<p>Module 100</p> <ul style="list-style-type: none"> Apprentices attend and observe mentor trainer conduct Module 100 Apprentices present at the end of cohort Module 100 <p>TOTAL: 16 HOURS</p>
